INTRODUCTION

Research suggests that the most effective people are those who understand themselves, both their strengths and weaknesses, so they can develop strategies to meet the demands of their environment.

An individual's talents and personal skills are a fundamental and integral part of who they are.

In this report we are measuring three dimensions of thought. They are:

- * Intrinsic - People
- * Extrinsic - Tasks or things
- * Systemic - Systems

This report analyzes talents; that is, a person's ability to do things. Is the report 100% true? Yes, no and maybe. As you review your report, please determine which items are job related. This will give you insight as to where to begin development.

The internal dimensions are a reflection of her from both personal and professional viewpoints. The statements below are based primarily on the 3 dimensions on the right side of the dimensional balance page and are in a random order.

- Reyna has the capacity to judge herself evenly in terms of sense of self, role awareness, and self direction.
- She may call upon her inner strength when needed to get through a situation.
- She has the ability to see what perspective she needs to focus on, depending on the current situation.
- She could get into a comfort zone which could restrict her from developing or applying more of her potential.

- She believes that her own worth is based equally on her sense of self, her life roles, and growing as a person.
- She should continuously challenge herself in order to continue to grow.
