## INTRODUCTION

---

Research suggests that the most effective people are those who understand themselves, both their strengths and weaknesses, so they can develop strategies to meet the demands of their environment.

An individual's talents and personal skills are a fundamental and integral part of who they are.

In this report we are measuring three dimensions of thought. They are:

- \* Intrinsic - People
- \* Extrinsic - Tasks or things
- \* Systemic - Systems

This report analyzes talents; that is, a person's ability to do things. Is the report 100% true? Yes, no and maybe. As you review your report, please determine which items are job related. This will give you insight as to where to begin development.
